**Subject:** Re: Lompoc Valley Medical Center

Hi Sheila,

Dr. Gill is not a Director.  
He is the current Chief of Staff for the  
Medical Staff.

Chiefs of Staff for the Medical Staff  
attend Board Meetings to submit the names of physicians  
who are seeking hospital privileges to the Board for approval,  
after their requests have passed through the medical staff  
screening process.

I hope this information is helpful.

Take care.

Les Johnson

Subject: Lompoc Valley Medical Center

Hi Les,

I had a public records request for the Form 700 for the Board of Directors of the Lompoc Valley Medical Center. In the list of Directors was a Dr. Michael Gill MD, is he new to the board? He is not in the eDisclosure system.

Can you let me know if he is on the Board? If yes I will need his contact information, email and cell, date he assumed office and a mailing address. I can then enter him into our system and request a filing.
